STATUS REPORT

27 September 195

Next meeting to be held on Tuesday, 1 October at 2 p.m., Conference Room,

The Department of State has urgent need for Committee advice on the Soviet long term exchange proposal. The US-USSR talks on the exchange situation will begin about 28 October and position papers must be prepared prior to that time. A suggested version of the memo to the Department of State and copies of the Subcommittee papers on which it was based are attached. This will be the sole topic for discussion and it is hoped that a final version can be worked out at the meeting.
